What is COMETRY?

We at COMETRY have developed a unique new art form that blends comedy and performance poetry. We use this technique to amuse and educate our students. COMETRY's message teaches valuable **leadership, social, and diversity** skills, while also keeping listeners entertained and engaged.

Every experience with COMETRY does a few things: Provokes thought, tells a story, raises individual awareness, and delivers an inspirational message...all while making you laugh!

Program Info:

All comedy is clean and appropriate for any age
Most effective in a 60-72 minute format, but can be tailored to your schedule
COMETRY offers two programs:

Entertainment: Clean and clever observational comedy intertwined with energetic and well crafted performance poetry.

Edutainment: Audience members receive a message on **diversity, social & leadership** skills

Workshops:

- **Writing Poetry:** Discover writing prompts that effectively trigger your imagination and extract your emotions. Learn how to dance with the English language by converting literal text into image inducing poetry.
- **Leading Beyond You:** Apply the concept of G.R.A.V. to your community. We ask questions that relate to your specific environment and take a deeper look at how you can be an effective leader today.

COMETRY uses purposeful entertainment to educate students in diversity leadership. We demonstrate the four values every great leader possesses by teaching our acronym G.R.A.V., which stands for growth, research, approachability, and validation. We reinforce this message with interactive exercises and comedic poetry so that we can exemplify the benefits of growing outside of your comfort zone, learning about others, being open to others, and the value of encouraging those around you. COMETRY is a one of a kind classroom whose chalkboard happens to be a stage.

cometry founders

Hear it from others:

“Giving someone the opportunity to laugh, cry, and have their mind opened all in one show is truly special and I don't know of anyone else that could do it the way you two do. I will say that it's something that needs to be experienced.”

– Heather D. Sprinkle

Coordinator of University Programs
University of South Alabama

COMETRY is a good fit for?

High School Assemblies

Career Tech and Leadership Conventions
